About This Game

Mother Nature has met her match! When the Earth trembles, volcanoes rumble and thunder splits the sky, the Rescue Team is there to save the day. Guide this expert group of thrill-seekers with a heart for helping people as they dig through the rubble of one disastrous scene after another to save victims and rebuild towns.

There is no calamity too big and no animal too small to keep the Rescue Team off the scene. Guide them and their canine companions as they arrive by land, sea and air to clear debris, gather resources and complete missions that will take them deep into verdant jungles, dark mines and snow-capped mountains.

Use strategy to beat the clock and earn dozens of stars as you operate ski lifts, turn off dangerous oil geysers and clear foggy trails, and then use the stars to build your own Rescue Team base. With each hazard you overcome, new achievements and power-ups will be your reward.

The Collector's Edition of Rescue Team 7 comes with an epic 50-level campaign featuring a captivating story about the daily lives of these heroes, 20 challenging bonus levels, a step-by-step strategy guide, downloadable media and more. Play Rescue Team 7 today and experience the adventure that waits on the other side of danger!

A fun puzzle game. Worth playing if you want something challenging.. 10/10

Star Shelter is the best VR game I have ever played to this day. The graphics are gorgeous, the content is continuous, you are never left with nothing left to do. It is tense in some moments, scary in others, and relaxing too. You can create stuff to develop your base, you can explore surrounding spaceships and moon bases, you can build spacecraft, you can fight drones, you can play the piano (in space). This game never stops suprising me, and I love it.

For £10 its and absolute bargain, I would have happily paid £30-£40 for this game, it is very well developed.

The Dev team is very active in the discord too, the game is still being worked on and improved.

Absolutely LOVE it.. Fun game! Has a cute story to it.. This is a hyper realistic first person competitive eSports game that makes CS:GO seem like a dice roll. No RNG here, just fixed recoil. There's no rock paper scissors based on what gun you and your opponnet face off with, because there is only one gun. This game doesn't follow old tropes like exploding barrels, those things don't do♥♥♥♥♥♥ Invisible walls are a thing of the past, just walk right off the level ♥♥♥♥♥♥ it. Sure it has floating trees and rocks, but hey, no more than Skyrim!

Honestly, this game shouldn't be ignored. It reads like a manifesto, if no one keeps an eye on "Indie Game Group" who knows what he'll do next. I think he must have looked up at future Mr. President Donald Trump and thought to himself, how can I aspire to this? Then he set off for an endeavor typically reserved for the skilled and passionate without a single neuron connected to the subject but a few bucks to spend. Three or four unrelated content packs from the Unity store and he's got himself a game. Picture this: Sure sure, it's terrible, but you already paid the \$100 fee for Greenlight and mom is going to be♥♥♥♥♥♥♥♥♥♥if she finds out, right. So what can you do but publish and hope the XP ♥♥♥♥♥♥s and pathetic card collectors pick up half a hundy real cheap during the Summer Sale? Hell, you might even get to be the weekly YouTube bait!

Don't wander into these pitfalls like "Indie Game Group" did, who ever you are, just pick up the phone book and call *literally anybody*. Turn yourself in, get help, tell them how stupid you are and take any advice given. I guess its got a pretty nice banner though.. I love this game; it is so much more than the bejeweled game I was expecting based on the name and screenshots. Instead, it turned out to be a very original, cute, and challenging puzzle game.

That said, it has been unforgiving. You are specifically not told how the mechanics work in the battles or in the overworld (or when you are it done so cryptically), so just figuring out how to play is a puzzle. For example, how are you supposed to know what it means to "glitch" something? I think this helps with "immersion," adding to the mystery. Once you get the hang of that, you are still at the mercy of difficult fights and RNG, and losing means you have to start the level from the beginning. As frustrating as this was, the game often gave me multiple levels to try at once, so I could cool off on the others before trying the difficult one again. As you can see, I believe the unforgiving parts of this game are handled well.

In fact, I am glad the game wasn't a cakewalk or it would have been too short. Other great things about it include the soundtrack, the humor, the story, and the characters. I could write a lot about each. But my favorite part of the game was the evolving gameplay. The basic mechanics of maneuvering the overworld and battling do not become tired and repetitive because the rules get flipped on you with almost every screen. These changing rules are the puzzles you have to solve, and they are clever and push the game to the limit. I was especially impressed at the use of a 'program' item you receive at the beginning of the game that I thought would be obsolete by the end, but was actually integrated very well into MULTIPLE later puzzles!

My only complaint is that there is a portion of the map in the forums that I never get to enter, even after beating the game. This, along with the unopened zipper files, made me hope for postgame content, but there wasn't any.

Amazing little game. Low replayability, so I recommend getting it on sale, but if you like puzzles, play it!

Great arcade shooter with different modes and unlockable boosters.

Sad there is no story mode :(While not up to the standards of Monkey Island, the levels of writing and wit in this game are surprisingly high. It's a good adventure that's fairly child-safe, as they probably won't get the occasional adult joke. It has good voice acting, fun characters, cute art, and the built in hint system counters the occasional inobvious puzzle. The only real complaint I have is that it's so darn short; you can beat it in a single sitting with ease, and there's not much replay value unless you just like farming steam achievements with a walkthrough on hand.. If you want the thrill of a roller coaster with the rush of vertigo while sitting in the comfort of your home this is the game for you.

. I prefer this one to the original.

Oh..Sir! The Hollywood Roast is a sequel to Oh...Sir! The Insult Simulator but with film parodies.

The insults include references to Donald Trump as well as classic and modern movies as well as film production, and probably a lot more I haven't found yet.

The locations also include references to movies and TV Shows. There's Walter White on a Wanted Poster in a map called "The good, the bad, and your momma" (a reference to the good, the bad and the ugly). The characters are parodies of Gandolf from The Lord of the Rings, Harry Potter, and Marilyn Monroe.

The company intros at the beginning are obvious homages to MGM, and 21st Century Fox.

I originally gave the original a negative review, but I love this game and I definitely recommend it.

On top of the new jokes and references, the game also has slightly better gameplay. It tells you how much each insult is worth, so if you string 2 insults together it will say Insult 1 is worth 7 points, but you get a multiplier for using the same opener in the previous round, as well as what insult 2 is worth, rather than the total of both combined....helping you get better at the game as you play more.

My only real complaint is that even though it has Steam Workshop support, these are only reskins for existing characters, and I feel this game would have a larger lifespan if they were new characters, and say...you could pick a strength and a weakness or whatever.

Would definitely recommend. It's 3 quid, how can you skip on this game?. Game appears to be a clone of Chronicles with some changes to the puzzles. If the controls were not so wonky I would have given this game a better review because it does have nice graphics. Well after playing a few times and using a regedit change I was able to not only lower the resolution but also it corrected the controls problem I had. Now I would have to say its not a bad game and is better if you can get it at a sale price..

HE DIDN'T EVEN CHANGE THE TITLE SCREEN

[WHAT THE \u2665\u2665\u2665\u2665 ARE YOU DOING VALVE?](#)

[\u02e2\u1d57\u1d49\u1d43\u1d50 \u1d48\u1da6\u02b3\u1d49\u1d9c\u1d57 \u02b7\u1d43\u02e2 \u1d43 \u1d50\u1da6\u02e2\u1d57\u1d43\u1d4f\u1d49. This is a great game, with a great little community, too little.. If this game was free or cheaper, it would probably have a lot more players playing it. But it's still super fun if you get at least 2-3 people to play with. Highly recommend it.. Worst 8 minutes of my life...](#)

[Dev Blog #146 - A Place for the Dead:](#)

[A rock band called Alice in Chains once sang “Gonna end up a big ole pile a them bones”.](#) It’s a sobering thought, I guess. Well, with this as inspiration we began making them dry bones for our creatures in the game. It sounds dark, but good feedback, bones are also a legacy, a calcium enriched one! But there’s also great news from the states of the eagle and lots of UI shenanigans, [read more about the details on the dev blog\[eatcreatesleep.net\]!. **Trine 4: The Nightmare Prince Announced!**](#):
